Wednesday, June 14, 2017	What is your company's valuation? - location TBD

We thank the Musky Tank Mixer™ partners:

Musky Tank Mixers™ are a series of meetings, the second Wednesday of most months, at a rotating location in the Chippewa Valley, designed to bring together entrepreneurs and others to discuss appropriate topics. Each meeting will last approximately ninety minutes, with a 30-45 minute presentation or panel discussion, followed by Q&A, then a social mixer. There is no obligation, no cost. But you must register. Just come to learn, come to observe, or come to network!

Helping Start Ups Start Up.
Helping Companies Grow.

www.muskytank.com

Musky Tank, LLC is an Eau Claire company providing entrepreneurial consulting services, primarily to start-up companies and small to medium size growth companies. www.muskytank.com

Start-ups: Musky Tank provides mentor and coaching to start-up and early stage companies, using a wealth of knowledge and experience to “cross the T” with the entrepreneur. This allows the founder to focus most of their effort on the product or service while being guided on other aspects of operating a business, such as intellectual property, business plans, management, accounting, and financing.

Growth and turnaround companies: Musky Tank will work with small companies wishing to grow to a new level of success, or with fledgling and failing companies needing to turnaround. This is accomplished through an organized process of (unemotional) analysis of all company inputs and outputs, with a focus on understanding the numbers, the expectations and performance metrics.
